Floor Care

Factors to consider when choosing the most efficient vacuum cleaner for your home

Powerful

A vacuum with an efficient motor combines airflow and air speed for optimal suction of particles to be picked up. A powerful vacuum cleaner is judged by the sum of all its parts from the nozzle to the motor and its filter.

Does not release dust back into the air

The most efficient vacuum cleaners should have a sealed filtration system and a good HEPA filter so you can be assured that the dust that comes in the machine is not released back into the air.

Good dust pick-up

The nozzle of vacuum cleaner is where the dust pick up happens, you need to create an optimal combination of airflow and high air speed for good dust pick up, the right nozzle will help you get the cleaning job done more efficiently.

Does not overheat and is longer lasting

Keeping your vacuum cleaner well maintained by changing the dust bag, emptying the dust bin and cleaning the filter periodically will help prevent overheating and make sure your machine is always working in top condition.

Easy to handle and ergonomic in design

Aerodynamically designed tubes and hoses are to minimize the pressure loss through the system. These parts play a key role in efficiency and ergonomics of the vacuum cleaner.

Over 100 years of Vacuum Expertise and Innovations

Revolutionizing the cleaning industry, Electrolux has combined value for consumer needs with passion to deliver ground-breaking cleaning innovations to make for the perfect cleaning solution in homes all over the world since 1912.

It all began in 1912, when founder Axe Wenner-Gren launched the Lux 1, the company's first household vacuum cleaner. Since then, Electrolux has moved on to produce some of the world's most popular and innovative vacuum cleaners for all homes on a global scale.

With over 100 years of vacuum expertise, Electrolux builds its leading innovations around their valued consumers. With in-depth research, thoughtful designs, and strong consumer insights, Electrolux vacuum cleaners ultimately meet the needs of every household. Being consumer-centric is a key guiding principle to any of Electrolux's pioneering creations launched in the market. Electrolux identifies with its consumers because the products are flexible, convenient, beautifully crafted, and most importantly sustainable.

Over 100 years of Vacuum Expertise: Key milestones

In 1921, the first vacuum cleaner on runners – model V was launched. This was the first household vacuum cleaner worthy of the name, adapted for use in ordinary homes and served as the starting point from which all future design aspects of the modern vacuum cleaner was built on.

In 1964, the first new generation of vacuum cleaners, Luxomatic Z90 was launched with never before design features such as a cord winder, self-sealing paper dust bags, and a dust indicator that could remarkably indicate when the bag was full. It quickly became a symbol of economic strength for the Electrolux Group and its' vacuum cleaner division.

In 2001, Electrolux put the first self-going vacuum cleaner on the market - the Trilobite. What makes the Trilobite unique is that it can navigate using ultrasound as well as turn itself off with automated recharge after the completion of every vacuum session. Measuring only 13cm high and a 35cm diameter, the Trilobite provided consumers with an incredible "hands-off" way to clean their homes.

In 2004, the cordless stick cleaner Ergorapido 2-in-1 was launched. Developed purely to fit the new wave of urban cleaning behaviours, the Ergorapido is the answer to all consumer needs by providing an instant and convenient cleaning. It was the first in a new global category of stick cleaners. With its' impeccable design it could easily be left as a display at home. Excelling in conveniences, the Ergorapido offers the power of an upright vacuum and hand-held in one. Later, the second generation of Ergorapido was released into the market in 2007.

In 2007, the Rapido, the world's first hand-held vacuum cleaner with wheels was launched. This simple, innovative design allowed consumers to glide the vacuum over cleaning areas without damaging the surface. Simultaneously in this year the all new UltraSilencer Green vacuum was launched. To minimize energy consumption and maximize ecological conservation, the vacuum uses up to 33% less energy, is made with 55% recycled plastic and consumes an astounding 90% less energy during production.

In 2008, the vacuum with top-rated cleaning performance UltraOne was introduced. Among one of the most silent vacuum cleaners in the market, the UltraOne's well-thought designs makes way for convenience in handling.

1912 - Vacuum cleaner Lux Model I

Notable Recognitions

Demonstrating true excellence in forefront design and innovation Electrolux received numerous acknowledgements for their solid devotion to consumers. Whether it's product, design or consumer orientated, Electrolux has consistently been recognized as the winner.

2005 : The Electrolux Oxy3system Vacuum Cleaner and Electrolux Ergorapido 2-in-1 Instant Vacuum Cleaner won the Red Dot Design Awards as the 50th edition of the Red Dot Design awards competition.

2006 : The Electrolux Ergorapido Vacuum Cleaner received the Swedish Good Design Award.

2008 : The Electrolux UltraSilencer Green Vacuum Cleaner was awarded the prestigious inspiration prize by The Swedish Recycling Industry Association. It was the first environmentally-profiled vacuum cleaner on the market.

: The Electrolux Energica and the second generation of Ergorapido 2-in-1 Vacuum Cleaner were also awarded the iF Design Award, organized by International Forum Design in Hannover, Germany.

2009 : The Electrolux UltraOne Vacuum Cleaner received the Best in test in consumer reviews in 5 consecutive countries; Sweden, Denmark, Norway, Finland and Czech Republic.

2010 : The UltraOne Vacuum Cleaner received the iF Design Award. Up to 2,500 products from 39 different countries took part within this competition. The UltraOne Vacuum Cleaner was one of the 778 products to receive the award.

: The Electrolux Ergorapido Vacuum Cleaner was rated category winner in performance test conducted by the independent German test institute SLG. The World's most sold battery-driven Vacuum Cleaner outperformed its' main competition in three of four categories.

: The Electrolux Ergorapido Vacuum Cleaner was awarded two international design awards for sleek design. Winner of the Red Dot Design Award and the iF Design Award.

: Electrolux Vac from the Sea campaign was the winner of five European PR Awards; two European Excellence Awards and three Eurobest Awards.

2011 : Electrolux received an IPRA Golden Award from the United Nations for Vac from the Sea, a project with the aim to raise awareness about global shortages of recycled plastics. The project was launched since June 2010. The IPRA Awards was initiated by the United Nations in collaboration with the International Public Relations Association (IPRA) to address most expertly those issues of concerns to the United Nations.

2011 : The Electrolux UltraOne Vacuum Cleaner received the prestigious Plus X Award which was further honoured with Best Product of the Year 2011 Award for High quality design and ease of use.

: The Electrolux Ergorapido hand-held Vacuum Cleaner won the Plus X Award for high quality, design, ease of use and ergonomics.

2013 : The Electrolux UltraOne Mini Vacuum Cleaner achieved an outstanding result in this year's Red Dot Design Award.

2014 : The Electrolux Ergorapido, UltraOne, and Rapido Vacuum Cleaner received the international Plus X Awards.

: The Electrolux Ergorapido Vacuum Cleaner also was the winner of the Best Product of the Year, Awarded by Plus X. The award truly recognizes innovative technologies under the sports and lifestyle product type. It was judge against category pillars namely; innovation, quality, design, ease of use, functionality, ergonomics and ecology.

: The Electrolux Ergorapido, Ultracaptic, UltraOne and Rapido Vacuum Cleaner were all winners of the Red Dot Awards.

: The Electrolux Ergorapido Vacuum Cleaner was the winner under the 'Best of the Best' category by Red Dot Awards which recognized Ergorapido as the product with ground-breaking design.

2015 : The Electrolux UltraFlex Vacuum Cleaner was given the category winner from Plus X Award. With the UltraFlex's twin-inlet channels, its' design optimizes airflow and suction for effective removal of dust and dirt.

: The Electrolux UltraFlex Vacuum Cleaner wins the Red Dot Design award for product of the year.

2018 : The Electrolux Pure F9, Electrolux's' first cordless vacuum cleaner that allows consumers to clean their homes on a single charge with the power of traditional vacuum performance was launched.

2019

: The Electrolux Pure F9 cordless vacuum cleaner and Pure i9 robotic vacuum have outstanding product innovation and design. In recognition of this, they were awarded the prestigious iF Design Award;

- Pure F9 received the iF Design award in 2019.
- Pure i9 robotic vacuum received the iF Design award in 2018.

2021 : The Electrolux WellQ6/Q7 cordless stick cleaners with easy-grip handle, slim frame designed and low weight distribution cum axial cyclonic technology ensure steady and good cleaning performance even while the dust bin fills up. In recognition of this, the range were awarded the iF Design Award.

SILENTPERFORMER™ CYCLONIC

The power of silence

The SilentPerformer™ is the only bagless canister vacuum featuring the smart innovations of Silence Pro System™. It delivers powerful deep cleaning performances whilst sustaining minimal noise - 75dB(A) noise level. The Dust Magnet Pro Nozzle automatically adjusts to different floor surfaces ensuring good dust pick up while protecting your floor.

Experience the ultimate power of silence with SilentPerformer™ vacuum cleaner.

Silence Pro System™

Quieter performance

The multi-way air movement deliver constant cleaning performance with its cyclonic system at low noise level

Clean-air Filtration™

For a healthier home

HEPA 12 filter captures up to 99.99% of dust particles while the sponge filter prevents dust from entering and damages the motor.

Easy Empty™ System

For quick & hygienic emptying.

Bagless Vacuum Cleaner

For convenient cleaning

Advanced cyclonic technology that enhances vacuuming performance

Eco-friendly; no dust bag required

Not recommended for people with respiration and allergic healthy issue

SilentPerformer Bagless Vacuum Cleaner

ZSP4303AF

Features

- 1,600W
- Power regulator
- 1.4L dust container capacity
- Washable HEPA 12 exhaust filter
- Washable sponge motor filter
- 9m action radius
- 75dBA
- Combi upholstery with brush
- Dust magnet silent floor nozzle
- Parketto floor nozzle

Ease C4

Efficient cleaning, now effortless

4-step filtration

Our bagless vacuum cleaner's 4-step system effectively separates dust particles for a deeper clean.

High performance

The cyclonic separation maintains constant performance regardless of how full the dust container is.

Designed for easy emptying

Single button release to carefully dispose the dust in an effortless way.

Large wheels for better stability

Large rotary wheels prevent the vacuum cleaner from getting obstructed, meaning improved stability around the home.

Less effort with more capacity

The high-capacity dust container can store up to 1.8 litres, so it requires emptying less often.

Ease C4 Bagless Vacuum Cleaner

EC41-6CR

Features

- 2,000W
- Power regulator
- 1.8L dust container capacity
- Washable EPA12 exhaust filter
- Washable EPA10 sponge motor filter
- 7.5m action radius
- 81dBA
- Dust Pro floor nozzle
- Combi crevice with brush
- Upholstery nozzle
- Parketto, Turbo pet, mini turbo bed, deep cleaning brush, pivoting dusting brush

Ease C4 Bagless Vacuum Cleaner

EC41-2DB

Features

- 2,000W
- Power regulator
- 1.8L dust container capacity
- Washable EPA12 exhaust filter
- Washable EPA10 sponge motor filter
- 7.5m action radius
- 81dBA
- Dust Pro floor nozzle
- Combi crevice with brush
- Upholstery nozzle

Ease C4 Bagless Vacuum Cleaner

EC31-2BB

Features

- 1,800W
- Power regulator
- 1.8L dust container capacity
- Washable EPA12 exhaust filter
- Washable EPA10 sponge motor filter
- 7.5m action radius
- 81dBA
- Dust Pro floor nozzle
- Combi crevice with brush
- Upholstery nozzle

COMPACTGO CYCLONIC

Small in size, big in benefits

The COMPACTGO is a compact bagless canister vacuum cleaner with effective dust pick-up for all types of carpets and hard floors. It is lightweight, powerful, compact in size and is ideal for even the smallest space, it can be stored tidily out of the way.

COMPACTGO vacuum cleaner really gets the job done - effortlessly

CompactGo Cyclonic Bagless Vacuum Cleaner

Features

Z1231

- 1,600W
- Power regulator
- 1L dust container capacity
- Microfilter exhaust filter
- Washable HEPA 10 motor filter
- 8m action radius
- 81dBA
- Combi crevice with brush
- Upholstery nozzle
- Dust Pro nozzle

CompactGo Cyclonic Bagless Vacuum Cleaner

Features

Z1230

- 1,500W
- 1L dust container capacity
- Microfilter exhaust filter
- Washable HEPA 10 motor filter
- 8m action radius
- 81dBA
- Combi crevice with brush
- Upholstery nozzle
- Dust Pro nozzle

Powerful dust pick up

For efficient cleaning.

Easy maintenance dust container

Easy disposal of dust and washable dust container.

Lightweight and compact design

Ergonomic handle design for easy handling and storage.

Bagged Vacuum Cleaner

For thorough and hygienic cleaning

- Convenient and hygienic; just remove and disposed of the dust bag
- Ensures no dust leaks/ released back to atmosphere during emptying process
- Recommended for people with asthma and allergy sufferers
- More quieter compared to bagless vacuum cleaner

ultrasilencer™ GREEN™

Quiet, powerful, yet green

Powerful suction and optimized airflow at minimal noise

From nozzle to outlet, the airflow has been sealed to deliver powerful Suction and high filtration efficiency. The wide and smooth channels of the AeroPro™ nozzle system and hose creates a high, optimal airflow which picks up dust and dirt at minimal noise levels.

More importantly, the HEPA sealed filtration system not only traps tiny dust particles and allergens, but also cleans exhaust air by more than 99.99% as certified by SLG, making this the best vacuum cleaner for people sensitive to dust.

The most silent vacuum, allowing you to do things you never thought was possible, like vacuuming in the middle of the night without disturbing others or during daytime around sleeping babies.

What makes UltraSilencer so amazing?

AeroPro™ hose
Smooth inner profile reduces noise without compromising on flexibility

AeroPro™ Silent Air Technology™ nozzle
Designed with sharper edges for optimal dust pick-up

SoundShield™
Noise protective SoundShield™ further reduces noise from air leakage

The green concept

Scan me to find out about our Better Living Program 2030

Eco power
50% lower energy consumption* due to the energy efficient motor
**compared to a 2,000W normal vacuum*

Made from recycled materials
Made from 55% recycled plastic, which means less energy is used to produce it

It is also 92% recyclable
Even the packaging is made from recycled paper

UltraSilencer Green Bagged Vacuum Cleaner

ZUSG4061

Features

- 1,000W
- Power regulator
- Washable HEPA 12 exhaust filter
- Microfilter motor filter
- 12m action radius
- 61dBA
- 3-in-1 combi nozzle
- AeroPro Silent floor nozzle
- Parketto floor nozzle

COMPACTGO

Compact cleaning always at hand

Lightweight and compact

For easy storage.

Accessories

Always at hand.

CompactGo Bagged Vacuum Cleaner

Z1220

Features

- 1,600W
- Microfilter exhaust filter
- Microfilter motor filter
- 8m action radius
- 82dBA

- Microfilter exhaust filter
- 5m cord
- Dust Pro floor nozzle
- Wet nozzle
- Crevice nozzle
- Dusting brush

Robotic

For always available in cleaning

Always available, always connected through a mobile app to allow vacuuming from anywhere, at anytime

Scheduled cleaning timing and frequency for hassle free vacuuming

Suitable for individuals with a busy lifestyle

PUREi9.2 - Animal Vacuum from anywhere

The world's first robotic vacuum with technology so advanced it independently pursues with single-minded perfection the relentless cleaning of your home everywhere, even the hardest to reach spaces, elevating your standards of clean.

Unique Trinity shape™ and powerbrush

Your house isn't round, so why is your vacuum? Pure i9.2 is designed with a triangular Trinity Shape™ and an extended side brush to reach all of the corners, tight spaces, and edges of your home.

ClimbForceDrive™ Technology

Pure i9.2 climbs over thresholds up to 2.2cm high and tackles even the toughest of floor surfaces—not even pet hair stands a chance.

This all-terrain pro cruises from hardwood to carpet with ease, leaving nothing behind.

Always available, always connected

Whether you're hitting up the gym or heading to work, the Wellbeing app makes it super simple to maintain spotless floors on your time. Check in on your robot from afar or schedule cleaning ahead of time and forget about vacuuming altogether.

A Vacuum that sees

Pure i9.2 sees the world with a 3D Vision System™ to spot objects in its path and avoid obstacles. It won't get tangled in stray cords or bump into breakable objects, and you won't find it stuck under furniture.

It detects and analyses obstacles in 3 dimensions – on the floor, above the floor and cliffs – and decides the best cleaning path to avoid getting stuck.

Best dust pick up on all floor types in one pass with AirExtreme Technology™ and XXL Cleaning Path

- 1 A strong airflow generated by a powerful fan unit
- 2 Together with the large brush, it gives the best cleaning performance on all types of floors (hard floor, carpets, etc)

Auto-power

Adapts its speed and the brush-roll speed to the type of floor (faster on hard floor, slower & intensive)

3D Mapping Navigation™

Structured cleaning with Mapping Navigation™ avoids vacuuming the same spot repeatedly enabling it to clean faster while securing on optimal coverage.

How 3D Mapping Navigation™ works?

The robot first cleans along the walls and then goes inwards. When the room is too big, the robot will make regions of approximately 2m x 2m. Thereafter, the robot creates a virtual frontier and cleans inside the first region.

Purei9.2 - Animal Robotic Vacuum Cleaner

Features

PI92-6SGM

- 14.4V
- Lithium Turbo Power 2500mAh
- 3D Vision™ Technology
- 0.7L dust container
- Cleaning time up to 70 minutes
- 3D sensor obstacle detection
- 3D cliff sensor
- XXL washable pleated filter
- 2.2cm threshold climbing
- XXL 26cm cleaning path
- 75dBA
- Adaptor Cord Length: 1.8m
- Fast charging, full charge in 1.5 hour

Stick Vacuum Cleaner

For quick & easy cleaning

Accentuate the element of convenience

Fitted for small to medium households

Best suited to reach those hard to reach places

Pure Q9-PowerPro

Grab. Go. Job done.

The powerful 2-in-1 stick vacuum is equipped with PowerPro Roller – the hard floor expert nozzle removing XXL sized dirt and fine dust with superior performance, taking the effort out of cleaning.

PowerPro roller

The hard floor expert roller removes fine dust and XXL particles in the first go.

PowerPro Nozzle for 7x better crevice pick-up**

The sealed nozzle system creates a higher air speed which efficiently removes dust in narrow spaces.

5-step Air Filtration

Removes up to 99.99% particles between 2,5-5µm*** for an optimum home environment

No loss of performance*

Enjoy full performance throughout the entire clean even with the dust bin filling up.

A more silent clean

The handheld unit is designed for maximum noise reduction, with a combination of smooth airflow design and muted exhaust

* Measured with dust container loaded with DMT (standard test) dust, according to IEC 5.1, 5.7 & 5.9 on max power setting

** Compared to previous model ZB3013

*** Measured according to EN 60312-1:2017

Exceptional Run-time

3 Power Settings with up to 55 minutes run-time

On-board brush

Full Tilt Design

For better reach under low furniture. The full tilt and slim frame design enable to vacuum under furniture as low as 135 mm.

PowerPro Roller

- hard floor expert

PowerPro Roller with polishing effect removes fine dust to XXL particles in the first go.

LED headlights

It enables you to see under the furnitures.

Accessory guide

01

Dusting tool

Perfect on level surfaces

02

Crevice tool

Reaches those small crevices between cushions and behind narrow surfaces

03

Delicate nozzle with plush

Easily removes hair and fibers from upholstery and delicate surfaces.

04

Super long telescopic tube

For that extra reach that you need - up to 55cm

05

Bed Pro nozzle

Powerful motorized brush with UV light to deep clean bed from fibres and dust mite allergens

06

Slim floor nozzle

For excellent pickup performance & edge clean.

BrushRollClean (BRC)

Patented BRC technology cut and clear all hairs and fibers with a simple press on the pedal.

Full performance. Half the sound.

Captures 99.9 % particles between 0.3-10 μm^*

*Measured according to EN 60312-1:2017

Unique handle grip design

Works as a sound muffler

Axial cyclone with helix inlet air design

Accelerates the rotation of the air into the cyclone to separate the dust into the dust bin and reduces clogging

E10 emission filter

This washable filter is beneficial to asthma and allergy sufferers

Pure Q9 PowerPro - Reach Cordless Vacuum Cleaner

PQ92-3EMF

Features

- 25.2V Lithium TurboPower HD
- 0.3L dust container
- 5 steps filtration
- Washable EPA-E10 filter
- PowerPro nozzle With LED Light
- Accessories:
 - Dusting brush (on board fit)
 - Crevice tool
 - Long crevice telescopic tube

Pure Q9 PowerPro - Allergy Cordless Vacuum Cleaner

PQ92-3SBWF

Features

- 25.2V Lithium TurboPower HD
- 0.3L dust container
- 5 steps filtration
- Washable EPA-E10 filter
- PowerPro nozzle With LED Light
- Accessories:
 - Bristle nozzle with BRC & LED Light
 - Dusting brush (on board fit)
 - Crevice tool
 - Long crevice telescopic tube
 - Delicate brush
 - BedPro nozzle (with UV light)

WELLQ6 / WELLQ7 PowerPro

Versatile Performance. Always at Hand.

Outstanding performance that quickly adapts to your everyday cleaning needs.

Powerful and adaptable, for quick thorough cleaning

Easy access to the hand unit and onboard accessories allows you to quickly switch from cleaning the floor to those hard to reach areas, and back again, in an instant.

Uncompromised cleaning performance*, for longer.

Axial cyclonic technology ensures uncompromised performance throughout the clean, even while the dust bin fills up.

*Maintains 99% of initial cleaning performance as the bin fills up acc to IEC 62885-2 edition 1.0: 5.1, 5.7 & 5.9 on max power setting.

5-step Air Filtration

The 5-step filtration system with E10 filter material removes up to **99.99% >1µm microdust particles.

Brush Roll Clean

Patented BrushRollClean (BRC) technology cuts and cleans itself from hairs and fibers by just pressing the pedal for 5-10 seconds while the vacuum is on. The internal blade cuts the hair and fibres which are then sucked into the dust container to maintain performance without manual cleaning.

(Applicable only for WQ61-IOGG)

DYNAMICA PRO

Deep cleaning results.
Effortless cleaning.

Dynamica Pro is a bagless vacuum cleaner which is powerful and less hassle comparing to a broom. It will bring you convenience and comfortable cleaning experience on any surface. Discover the new, hygienic and easy way to keep your home clean.

Easy to use

Easy-steer maneuverability and ergonomic design for smooth turning and movement on all floors

Use on any floor type

Powerful dust pick-up with motorized nozzle for an efficient and thorough floor cleaning

Hygienic

Enjoy a cleaner and fresher air with HEPA 13 filter-99% filtration

rapido®

Cordless freedom. Always within reach.

Enjoy the best of both worlds as you clean up wet and dry spills. To clean wet spills, simply attach the rubber nozzle accessory and spills are quickly sucked up. Attach the crevice tool for cleaning of hard-to-reach, deep areas.

Soft, non-scratch wheels

Glide on furniture without scratches

Pull-out nozzle

To reach further and clean places like cupboards and bookshelves

Cyclonic action with 2 power settings

Regular cleaning and boost mode for quick cleaning
